

# Activation key Retrieval iOS7

New users will be emailed their Activation Key after their system builder account has been setup. Should you lose this Key or require your Key after an upgrade or reinstallation. You can go to the system builder download page and retrieve your Activation Key for your device.

You will need the UDID of your iPad

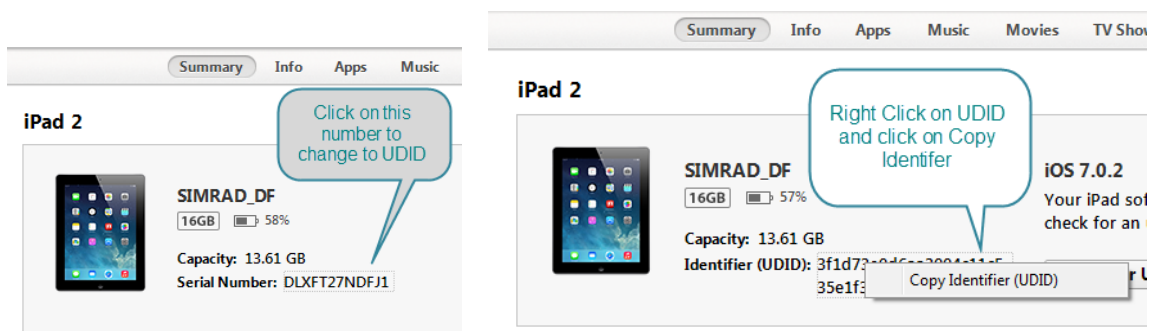

Your iPad will need to be connected to the internet

## Get your UDID

### Connect your iPad to a Computer with the latest version of iTunes installed

In iTunes click on the iPad to bring up the summary page.

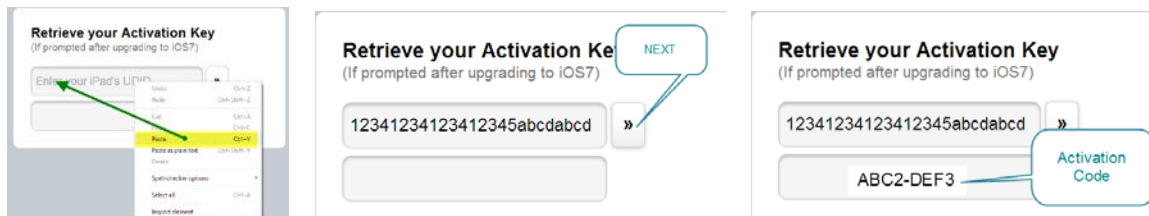

Click on the serial number to change it to the UDID. Then right click and copy

Goto to System builder Downloads page

<http://systembuilderprod.navico.com/download/>

Paste the UDID in to the box (Right Click Paste) then the Next arrows

## Enter Activation Key

The Activation key will need to be entered on both the Simrad and Lowrance system builders. The Activation Key is only required to be entered once.
